OBJECTIVE

Dedicated engineering student specializing in Artificial Intelligence and data science, with strong foundation in programming and a keen interest in software development. Passionate about problem-solving and continuously expanding my technical expertise. Seeking an opportunity to Contribute Software Development to apply analytical thinking and problem solving skills in a dynamic environment.

EDUCATION

B.Tech in Artificial Intelligence & Data Science (2023 - Present)
V.S.B College of Engineering Technical Campus , Coimbatore
CGPA : 7.9 (till 5th semester)

Higher Secondary Certificate (HSC) (2022 - 2023)
Geetha Matriculation Higher Secondary School , Thoothukudi 82%

PROJECTS

1. Road Accident Detection System

A Road Accident Detector is a smart system that detects vehicle accidents using sensors and automatically sends alerts with the accident location to emergency contacts or rescue services. It helps provide faster medical assistance and improves road safety using technologies like GPS, GSM and microcontrollers.

2.Animal Detector (IoT-Based System)

An IoT-Based Animal Detector is a smart system that detects the presence of animals using sensors, cameras, or motion detectors and sends alerts through the internet. It is commonly used in farms, forests, and residential areas to prevent animal intrusion and improve safety. The system can notify users through mobile apps, alarms, or messages in real time.

3. Heat and Sun Risk Checker

A Heat and Sun Risk Checker is a system that monitors temperature, sunlight intensity, and environmental conditions to identify heat-related risks. It helps warn people about extreme heat exposure, dehydration, or unsafe weather conditions using sensors and alert systems. These systems are useful in healthcare, agriculture, workplaces, and smart weather monitoring applications.

KEY SKILLS

Programming : Python , Java , SQL
Developer Tools : Github , VS Code
Soft Skills : Teamwork , Problem Solving , Time Management , Adaptability

CERTIFICATION

Data Analytics Intern ,
Vaeto Technologies (Dec 2025 – Jan 2026)

Artificial Intelligence Intern ,
Emglitz Technologies (Feb 2024 – Mar 2024)

LANGUAGES KNOWN

English – Professional Proficiency
Tamil – Native Proficiency

I hearby declare that the above furnished details are correct to the best of my knowledge.
